

JKURTZ is an architectural design firm based in Cleveland Ohio. A practice in a committed search for insight, beauty, and resonant meaning in relation to the places, landscapes, clients, and missions with which it is engaged. The studio produces works that manifest and generate culture.

We are looking for a talented, motivated, and conscientious architect [licensed or pursuing] with 2-6 years of experience for a full-time salaried position. Responsibilities require a willingness to engage all facets of design and contract documentation, presentations, modeling [physical and digital], construction administration, management, and dialogue with a team of experimental people.

Preferred candidate:

Professional degree, advanced degree a plus

Evident commitment to ambitious and complex projects in both design and execution

Agreeable when it doesn't matter but disagreeable when it does

Iterative collaborator

Strong communicator verbally and visually, with both clients and design team

Conceptually creative and technically sound

Proficient in Rhino and Adobe Suite, Revit experience/quick-learner a plus

Ability to prepare drawings sets for all phases of design

Experience in construction administration a plus

Dedicated to making things work, thoughtful approach to research and innovation in material assemblies & fabrication techniques; hands-on experience will be beneficial

Self starter with strong work ethic, ability to meet deadlines and prioritize effectively

Please submit a cover letter, resume and work samples in a single PDF (maximum 10 MB) via email to resume@jonathankurtz.com, no phone calls please.
