

OHIO ARTIST

- From Cincinnati to Chardon and from Bryan to Steubenville, this Ohio Artist has taken to the roads with camera in hand. These unique images are the result of traveling many miles within the Buckeye state. This Akron native brings a fresh view of our state's surroundings.
- First, the photos are selected from many shots at various locations. Great photos are the initial result, but these images are enhanced, layered, stylized and made into works of art.
